हिन्दी : अ - कू with pictures

Refer Textbook .

THE WOODCUTTER AND THE EAGLE

Once a woodcutter found an eagle caught in a trap. He felt pity and let it go free. Sometime later, the woodcutter sat down on a rock. He was having his lunch. The eagle dropped from the sky. It flew away with his hat . The man ran down the hill after the bird . Just then the rock he was sitting rolled down with a loud crash. Thus the eagle repaid its helper.
